Haliburton News Items

Quite a few hockey fans of this vicinity accompanied the local team and Citizens Band to Fenelon Falls on Monday evening. When it was found impossible for the Huskies to get to Fenelon by car, the Hockey Ass'n chartered a special train to take the team down to compete in the final game for the Reafrew and Durant Trophies. Although the train was procured on short notice it was supported well enough to more than pay the guarantee and the Hockey Ass'n are very thankful to those loyal fans of Burnt River and Kinmount for their generous support. Though our team were beaten by Murisons of Lindsay by a 1 to 0 score, those who were fortunate enough to take in the trip witnessed three fine games of hockey and felt well repaid for their trip.

Mrs. Laking and Mrs. H. Brodhagen have been visitors in Toronto this week.

Mr. Gratton Pollard of Lindsay visited with friends here over the week-end.

The members of the Midget Hockey Team, W. R. Curry, Pres. of Haliburton Winter Sports Ass'n and George Cluff, Pres. of the Haliburton Hockey Ass'n. were guests at a banquet tendered in their honor at the home of Mr. and Mrs. Wm. Baker. A very enjoyable time was had by all and a hearty vote of thanks was tendered to Mr. and Mrs. Baker for their kind hospitality at the conclusion of the proceedings.

Mr. Fred Jones has been in the city interviewing the Government in connection with affairs in this Municipality.

DENTISTRY

Dr. M. C. Mills, Dentist, will be at Minden Monday afternoon and Tuesday morning and at Haliburton Tuesday afternoon and Wednesday all day of each week.

C.N.R. Excursion

The C.N.R. are running another of their popular bargain return trip excursions on Saturday, March 25th. Fares from Haliburton and Galt to Toronto \$2.50, Hamilton \$3.25, Niagara Falls \$3.50.

PETITION

TO THE HONORABLE THE HOUSE OF COMMONS
OF CANADA,

IN PARLIAMENT ASSEMBLED.

WE, THE UNDERSIGNED CITIZENS of the Great Dominion of
Canada, being a free and independent people, in whom resides the right of
self determination, do hereby vigorously protest against the action of the
Radio Commission of Canada in censoring or attempting to censor and ex-
clude from public broadcast radio lectures on matters pertaining to the
Bible and of public interest, and particularly the lectures of J. F. Ruther-
ford, pertaining to divine prophecy. We have faith in the Bible as the
Word of God, and that it was written for the instruction of man. Many
sincere persons claim that the Bible prophecies apply particularly to our
day and bear direct relationship to the present world distress, and disclose
God's remedy for relief. We are entitled to hear these questions publicly
discussed free from all censor, otherwise our freedom is taken away.
Those who object, or who may be offended by such lectures, may turn their
radio dials and decline to hear.

We therefore demand that the Dominion Parliament take immediate
action removing from the Radio Commission the power to censor, hinder
or prevent such lectures by radio and that the people be left free to deter-
mine what they may or may not hear. Men of world-wide repute and em-
inently qualified to explain the Bible, such as we believe Rutherford is, can
be helpful to the people and we demand that our radio stations be permitted
to publicly broadcast his lectures. The question is, Shall the people con-
tinue to enjoy freedom or shall a few men deprive them of their God-given
rights?

OBITUARY

JOSEPH FADER

After much suffering during the last
month, there passed away on March 10th,
one of the oldest pioneers of Maple Lake,
in the person of Joseph Fader.

Mr. Fader, who spent the younger part
of his life in Quebec, moved to Maple
Lake in the year 1884, where he has
finished out the age of 93 years, 5 months
and 22 days.

He leaves to mourn his loss, his life
partner, aged 88 years, one daughter,
Mrs. Henry Sawyer, and six sons, Wil-
liam, George, Joseph and Charlie of
Maple Lake, Alfred of Ottawa and Elder
of Saskatchewan. There are thirty-two

grandchildren and forty great grand-
children.

The funeral service was conducted by
Rev. V. Zufelt. Interment took place in
the United Church Cemetery. Pallbear-
ers were Jack Campbell, Jack Langman,
Wm. Lewis, Jim Fader, Orm Fader and
Albert Carr.

Wreaths were given by family, Mrs.
Tom Archer and Mrs. Allen Hersley.

English Take Lead In Haliburton Population

Eighty-nine per cent. of the county of
Haliburton's total population of 5,997
people gave the information that they
were descendants of British races, the
census of Canada by racial origin issued
by the Federal Department of Trade and
Commerce shows.

Five thousand, three hundred and ten
people told the census takers that they
were of either English, Irish, Scotch or
other British origin and the figures for
the county are: English, 2,910, Irish
1,535, Scottish 810, German 221, Dutch
195, French 137, Other British 55, Italian
39, Finnish 28, Scandinavian 18, Un-
specified 14, Indian 9, Polish 7, Ukrainian
5, Hebrew 5, Austrian 4, Other European
3, Russian 1, Roumanian 1.—Post.

United Church, Minden Supper and Concert

The Supper and Concert under the
auspices of the Ladies Aid of the United
Church, Minden, will be held Friday
evening, March 17th. Supper served from
5.30 to 7.30 in church basement. Concert
in the Town Hall at 8 p.m., when the
young people will present the exception-
ally fine play, "Civil Service". Admis-
sion to supper and concert 35c and 20c.

Bride-to-be Honoured at Burnt River

The ladies of the United Church, Burnt
River, presented Miss Pearl Pocock with
a lovely Bible on Monday evening, Feb.
27th, as a remembrance of the little old
church where she attended many services
and Sunday School before her departure
for her new home near Donald. She was
also the recipient of many other gifts.
A very appreciative reply was made.

Entertainment Postponed

Owing to the severe weather of last
week the mock trial and play of the
Fortnight Club was postponed to a later
date. Watch for posters for particulars.

CARD OF THANKS

Mrs. Frank Hague and family desire to
express their heartfelt appreciation of
the kindness and sympathy of their
friends and neighbors, shown during the
illness and demise of Mr. Hague.

Calf Meal, Etc.

WANTED---Two Cars of No. 1 Dry Hardwood

E. E. McELWAIN - Gelert

Allsaw

Mr. Harry Blair has finished the haul
of cord wood by truck and teams from
here to Lechlin.

Miss Lila Cluff spent the week-end at
her home in Haliburton.

Mrs. Holland of Dysart is spending the
winter months with her daughter Mrs.
Geo. Robertson.

Mr. Campbell Mackey of Orillia was
a week-end visitor at the home of Mr.
Wm. Robertson.

Mr. and Mrs. Morley Sipes of Halibur-
ton are staying with Mr. Moody for a
few weeks.

The stork made a call to our neighbor-
hood on February 25th, leaving a baby
girl at the home of Mr. and Mrs. Harry
Hughes. Congratulations!

Mr. Joe Blair and Mr. Everett Blair
are working at Donald on the wood haul.

Mr. George Elstone of Blairhampton
spent Sunday at George Robertsons.

A shadow was cast over our com-
munity at the death of Mrs. Albert
Moody. Mrs. Moody had been ailing
for some time and on account of poor
health had gone to spend the winter
months with her niece, Mrs. Allen in
Toronto, where she died on February 24.

The funeral took place on Wednesday,
March 1st, from the home of her daugh-
ter, Mrs. Harry Blair in Dysart. Service
was held in the Ingoldsby United Church,
conducted by Rev. H. Wilkinson of
Haliburton, interment taking place in
Ingoldsby Cemetery. She leaves to
mourn her loss a loving husband, daugh-
ter, Emily, and son, Kenneth.

In the passing away of Mrs. Moody
we lose a well known and much loved
neighbor, one who was always ready to

lend a helping hand and who always
took an active part in the social doings
in our community.

She has gone from our midst like the
sunshine,
Which the dark shades of night clouded
o'er,

She has gone beyond sin, death and sorrow,
And pain will disturb her no more.
We miss her and mourn her in silence
unseen,
And dwell in the memory of days that
hath been.

No Speed Change

The 35-mile-an-hour speed limit for
motorists on Ontario highways will not
be changed this year, Hon. Leopold
Macaulay told the Essex County Motor
Club at Windsor.

"Until the human factor becomes a
little better educated, I hesitate about
any change," the minister said. He ad-
ded that 70 per cent. of Ontario's highway
accidents occurred during clear weather
and on dry roads, while less than seven
per cent. of the vehicles involved in these
accidents could be considered a menace
to public safety because of their age or
condition. Almost 99 per cent. of the
drivers involved in accidents were normal
he said.

Mr. Macaulay was the chief speaker at
the annual dinner of the club.

BIRTHS

WALKER—In Lutterworth Township
on Saturday, March 11th, 1933, to Mr.
and Mrs. Wallace Walker, a son.

KELLETT—In Minden Village on Mon-
day, March 13th, 1933, to Mr. and Mrs.
George Kellett of Snowdon Township,
twin boys.

The Leader for Forty Years

"SALADA" TEA

"Fresh from the Gardens"

Murder at Bridge

By ANNE AUSTIN.

SYNOPSIS

Juanita Selim is murdered at bridge; four days later Dexter Sprague is also murdered during a bridge party at the Tracey Miles' home. Police think both were killed by a New York gunman, to avenge the death of "Swallowtail Sammy" Savelli. "Bonnie" Dundee thinks the murders were committed by one of six people, guests in both homes at the time of the murders.

Nita banked \$10,000 since her arrival in Hamilton, which the police think was her pay for double-crossing Savelli, and which Dundee thinks is blackmail. The possible case against Flora Miles is strong. Dundee learns that Miles was rushed into the engagement by Flora, an intensely passionate girl, who scared off her prospective suitors. Penny Crain assures Dundee he is on the wrong track. Arriving in New York, Dundee asks at the store where Nita bought the dress that was her shroud, for the date of the sale.

CHAPTER XLI.

The white-haired, smartly-dressed buyer accepted the sheaf of photographs Bonnie Dundee was offering. "I'll do my best, of course," she began briskly, then paled and uttered a sharp exclamation as her eyes took in the topmost picture. "This is Juanita Leigh, isn't it? . . . But—" she shuddered, "how odd she looks—as if—"

"Yes," Dundee agreed gravely. "She was dead when that picture was taken. Did you know Mrs. Selim?"

"No," the woman breathed, her eyes fixed on the picture. "But I've seen so many pictures of her in the papers. . . . To think that it was one of our dresses she chose for her shroud! But you want to know when the dress was sold to her, don't you?" she asked briskly again. "I can find

as he recalled the surprise and glee of one of his former Yale classmates, now a discouraged young bond salesman, with whom he had kept in touch.

"You want to borrow my name and my kid sister?" Jimmy Randolph had chortled. "Hop to it, old sport! But you might tell me what you want with such intimate belongings of mine."

"You may not know it," Dundee had retorted, "but young Mr. James Wadley Randolph, Jr., scion of the famous old Boston family, is going to visit that equally famous school, Forsyte-on-the-Hudson, to see whether it is the ideal finishing school for his beloved young sister, Barbara. . . . She's about 15 now, isn't she, Jimmy?"

"Going on 16, and one of Satan's prize hellions," Jimmy Randolph had answered. "And the family would be eternally grateful if you could get Forsyte to take her, but make them promise not to have any more chorus girls who plan to get murdered, as directors of their amateur theatricals. Bab would be sure to be mixed up in the mess. . . . I suppose that's the job you're on, you flat-footed dick, you!"

The second telephone call had set an appointment at the Forsyte home for "Mr. James Wadley Randolph, Jr., of Boston," and Dundee rather relishing his first need for such professional tactics, relaxed to enjoy the 10-mile drive along the Hudson.

dreadful murder out in the Middle West—"

"Murder?" Dundee echoed, as if he had no idea what she was talking about.

"Haven't you been reading the papers?" Miss Earle rallied him, with a coquettish smile. "But I don't suppose Boston bothers with such sordid things," she added, her thin-lipped mouth tightening. "Miss Pendleton was all cut up about it, because Mrs. Selim, or Juanita Leigh, as she was known on Broadway, had directed our Easter play the last two years, and the reporters simply hounded us the first two days after she was murdered out in Hamilton, where a number of our rich girls have come from—"

"By jove!" Dundee exclaimed. "Was the Selim woman connected with this school, really?"

"I wish," Miss Earle interrupted tartly, fresh tears reddening her eyes, "that people wouldn't persist in referring to her as 'that Selim woman'. When I think how sweet and friendly she was, how, how kind!" and to Dundee's surprise she choked on tears before she could go on: "Of course I know it's dreadful for the school, and I ought not to talk about it, when you've just come to see about putting your sister into the school, but Nita was my friend, and it simply makes me wild—"

"You admired and liked her very much?" Dundee asked, forgetting his role for the moment.

"Yes, I did! And Miss Pendleton liked her, too. And you can imagine how clever and popular she was, when a wonderful woman like Mrs. Peter Dunlap, who was Lois Morrow when she was in school here, admired her so much she took her to Hamilton with her to direct plays for a Little Theatre. . . . Why, I never met anyone I was so congenial with!" the secretary went on passionately. "The girls here snub me and make silly jokes about me behind my back and call me nicknames, but Nita was just as sweet to me as she was to anyone—even Miss Pendleton herself!"

"Were you with her much?" Dundee dared ask.

"With her much? . . . I should say I was!" she asserted proudly. "I have a room here, live here the year 'round, and both years Nita shared my room. Say! you aren't a reporter are you?"

"A reporter? I should say not!" Dundee denied. Then he made up his mind swiftly. This woman hated the school and all connected with it—and she liked Nita Leigh Selim better than anyone she ever met. The opportunity for direct questioning was too miraculous to be ignored. So he changed his tone suddenly and said very earnestly: "No, I am not a reporter, Miss Earle. But I am not James Wadley Randolph, Jr., I am

To develop valuable property
the heart of the Granada Gold

Visible gold has been found in several places. Of the five veins, at locations where no visible gold was found, the following gold values:

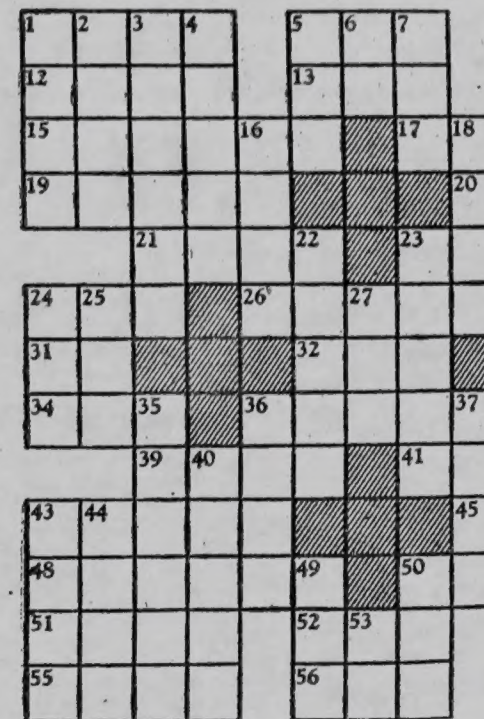

Vein No. 1 \$63.20 per ton Vein No. 2 .80 per ton Vein No. 3 .80 per ton

Another channel sample from what appears to be a continuation of No. 3 vein gave gold values of \$140.80. The samples were carefully scrutinized and tested, assayed, no visible gold was found. It seems to be attributed to the presence of gold-carrying pyrites or to free gold in very fine distribution.

Place your order by wire, send your cheque or write for detailed information.

dered, "how odd she looks—as if—" "Yes," Dundee agreed gravely. "She was dead when that picture was taken. Did you know Mrs. Selim?" "No," the woman breathed, her eyes staring with surprise. "But I've seen so many pictures of her in the papers. . . . To think that it was one of our dresses she chose for her shroud! But you want to know when the dress was sold to her, don't you?" she asked, brisk again. "I can find out. We keep a record of all our French originals and of the number of copies made of each. . . . Let me think! I've been going to Paris myself for the firm for the last fifteen years, but I can't remember buying this Pierre model. . . . Oh, of course! I didn't go over during 1917 and 1918, on account of the war, you know, but the big Paris designers managed to send us a limited number of very good models, and this must have been one of them. Otherwise, I'd remember buying it. . . . If you'll excuse me a moment—"

When she returned about ten minutes later, Miss Thomas brought him a penciled memorandum. "This Pierre model was imported in the summer of 1917, several months in advance of the winter season, of course. Only five copies were made—in different colors and materials. The royal blue velvet copy was sold to Juanita Leigh in January 1918. I am sorry I cannot give you the exact day of the month."

"You have been immensely helpful, Miss Thomas, and I thank you with all my heart," said Dundee.

Before he could follow the case farther, however, Dundee had an appointment to keep. After arriving at his hotel that morning he had made two telephone calls. He smiled now

Dundee would be sure to be mixed up in the mess. . . . I suppose that's the job you're on, you flat-footed dick, you!"

The second telephone call had secured an appointment at the Forsythe for "Mr. James Wadley Randolph, Jr., of Boston," and Dundee rather relishing his first need for such professional tactics, relaxed to enjoy the 10-mile drive along the Hudson.

It was a quarter to 12 when his taxi swept up the drive toward the big, gray-stone, turreted building, sedately lonely in the midst of its valuable acres.

"Miss Earle says to come to the office," a maid told him when he had given his name, and led him from the vast hall to a fairly large room, whose long windows looked upon a tennis court, and whose walls were almost covered with group pictures of graduating classes, photographs of amateur theatrical performances, and portrait studies of alumnae.

A very thin, sharp-faced woman of about 40, with red-rimmed eyes which peered nearsightedly, rose from an old-fashioned roll-top desk and came forward to greet him.

"I am Miss Earle, Miss Pendleton's private secretary," she told him, as he shook her thin, clammy hand. "I should have told you when you telephoned this morning that both Miss Pendleton and Miss Macon sailed for Europe yesterday. We always have our commencement the last Tuesday in May, you know. . . . But if there is anything I can do for you—"

"I should like to know something at first hand of the history of the school, its—well, prestige, special advantages, curriculum, and so on," Dundee began deprecatingly.

"I should certainly be able to answer any question you may wish to ask, Mr. Randolph, since I have been with the school for 15 years," Miss Earle interrupted tartly.

"Then Forsythe must take younger pupils than I had been led to believe, Miss Earle," Dundee said, with his most winning smile.

"I was never a pupil here," the secretary corrected him, but she thawed visibly. "Of course, I was a mere child when I finished business school, but I have been here 15 years—15 years of watching rich society girls dawdle away four or five years, just because they've got to be somewhere before they made their debut. . . . But I mustn't talk like that, or I'll give you a wrong impression, Mr. Randolph. Of its kind, it is really a very fine school—very exclusive; riding masters, dancing masters, a golf 'pro' and our own golf course, native teachers for French, Italian, German and Spanish. . . . Oh, the school is all right, and will probably not suffer any loss of prestige on account of that

"A reporter? I should say not!" Dundee denied. Then he made up his mind swiftly. This woman hated the school and all connected with it—and she liked Nita Leigh Selim better than anyone she ever met. The opportunity for direct questioning was too miraculous to be ignored. So he changed his tone suddenly and said very earnestly: "No, I am not a reporter, Miss Earle. But I am not James Wadley Randolph, Jr. I am James F. Dundee, special investigator attached to the office of the district attorney of Hamilton, and I want you to help me solve the mystery of Mrs. Selim's murder."

"But I shan't and can't tell you anything bad about Nita!" she protested. "The papers are all saying now that she got \$10,000 for double-crossing some awful racketeer, but I know she didn't get the money that way! She was too good—"

"Have you any idea how she did get the money?" Dundee asked.

Miss Earle shook her head. "I don't know. . . . Maybe she found her husband and made him pay alimony—"

"Did she tell you all about her marriage and divorce?"

Again Miss Earle shook her head. "The only time she ever spoke of it was last year. I asked her why she didn't get married again, and she said she couldn't—she wasn't divorced, because she didn't know where her husband was, and it was too expensive to go to Reno."

"She must have got a divorce, since she was planning to be married again to a young man in Hamilton," Dundee assured her.

"If poor Nita had belonged to a rich family," Miss Earle stormed, "they would have spent a million to hush up any scandal on her! . . . I've seen it done!" she added, darkly and venomously.

(To be continued.)

Nature's Sternness

Nature forgiveness does not know, Her low: You reap that which you sow, The high, the low, the rich, the poor, Her rigid ruling must endure, All fare the same,—fire burns, seas drown

The titled Lord, the village clown, The spendthrift, though deferred his bill,

All obligations must fulfil, Esau his rights away may cast, But no tears can undo the past.

'Tis well 'tis so! If she passed by Our reckless deeds, we would not try Our faults to mend; but since we know Her strict demands, we wiser grow, And on our ways more care bestow.

—Alexander Louis Fraser.

A jealous person is always in love, but it's usually self-love.

Who'd ever think that a trifle like a split cent could assure success in baking—but, actually, that's all perfect results need cost anybody.

You see, you use more flour than anything else when you bake, so it has just that much more effect on your results. A cup or two of Five Roses Flour may cost a split cent more than inferior flour but it makes *all* the difference in the world where baking success is concerned.

Women who have compared Five Roses with other flours say that Five Roses goes farther, too. So it actually pays to use dependable Five Roses Flour and isn't it extravagant, to say the least, to risk wasting eggs, milk, sugar and shortening for the sake of saving just a split cent? Five Roses is tested before you get it—and is always uniform—that's why you can be confident of success with its use.

Have you a copy of the new Five Roses Cook Book? It's a real help on bake day and a valuable aid in keeping house. Fill in the coupon below for your copy.

Let Children Help Themselves

Never Discourage Child's Natural Impulse to do Things

The baby was all ready to go out for his walk when his aunt arrived. "Goodness, Rose, you can't let him go that way!" she cried. "His cap is on backward and his overshoes are—" "Sh!" whispered the baby's mother. "He's all right. He loves to put his things on himself and I let him. I'll find some excuse later to fix things." Little by little his mother got him oriented, at time when his attention was distracted by something interest-

ing. He had done a job and a good one for his age. He had shown a willingness to help himself, and wasn't his mother wise to take the little seed and treasure it and let it grow?

Talking of seeds! Suppose we put one in the ground and then told it what to do—dug around it every day and scolded, "No, little seed, you mustn't do it that way, do it my way. Why that little sprout is all crooked and it's going in the wrong direction! See, come up straight to the light. There, that's better!"

By the time the seed got through minding us it would sign, "It's too hard. I just can't do it right. I'm trying as hard as I can to live but it's no fun this way, too much trouble. I was happier asleep. I'll just go back to sleep again." And that is the end of that one little life germ.

So it is with children. True, some are weeds, and need to be treated as such, but most of the urges that crop out in tiny children can be watered into real plants or flowers if we let nature alone and do not start in dictating whys and wherefores.

In a few short months this baby will have established a habit, the best habit in the world, that of helping himself. Moreover his own quick eyes will show him how to improve on himself. Children learn faster by their own observation in early years than they do by pages of telling.

We can guide natural urges as best we may, but the important thing is never to discourage, or discount.

Children of two dress themselves, except ties and buttons, and if their clothes are simply made, dress themselves completely. Children are not the helpless folk we think they are. They cannot do things our way, but it is by our way we judge them.

"No, no, that's not the right way!" has spelled defeat for so many infant urges it is a wonder they have any heart left, for anything. Children succeed in spite of us, not because of us.

NO MORE EXCUSES FOR STOPPED-UP DRAINS

GOOD MORNING — THIS IS MRS. DREW. WHAT DO YOU SELL TO CLEAR A CLOGGED-UP DRAIN PIPE? NOTHING, I'VE TRIED DOES ANY GOOD.

WE ALWAYS RE — COMMEND GILLETT'S PURE FLAKE LYE — IT KEEPS DRAINS CLEAR AND FREE — KILLS GERMS AND ODORS — AND WON'T HARM THE PLUMBING. SHALL I SEND YOU A TIN?

THAT EVENING

DID YOU GET THE PLUMBER TO FIX THAT DRAIN? NOT MUCH! I FIXED IT MYSELF — WITH GILLETT'S LYE. IT CLEARED RIGHT UP AND SAVED YOU A PLUMBER'S BILL.

Gillett's Lye dissolves clogging grease...

JUST sprinkle Gillett's Pure Flake Lye down your drains and toilet bowls each week. Use it full strength—this powerful cleanser cannot harm enamel or plumbing.

Grease and dirt dissolve like magic... germs are killed... odors banished. Your drains run free and clear.

And Gillett's Lye in solution has many uses in your kitchen. One teaspoonful dissolved in

a quart of cold* water makes short work of greasy pans, tracked-up floors and other tiresome cleaning tasks.

Use Gillett's Pure Flake Lye for all your household cleaning. It saves hours of hard work. Ask for it by name... at your grocer's.

GILLETT'S LYE

Free Booklet

The Gillett's Lye Booklet tells you how to avoid drudgery by using this powerful cleanser and disinfectant for dozens of heavy cleaning jobs. Also contains full directions for soap making, disinfecting and other uses on the farm. Ask for free copy. Standard Brands Limited, Fraser Avenue & Liberty Street, Toronto, Ontario.

* Never dissolve lye in hot water. The action of the lye itself heats the water.

EATS DIRT

...SMILES...

Here is a Teaser

A grocery boy set out to deliver his groceries and noticed a peculiar relationship among the number of eggs he was to deliver to his customers. He was to deliver eggs to six customers, and he noticed that each of his customers would receive one-half of his load of eggs, and a half an egg more. The load of eggs would, of course, diminish from customer to customer, so that each succeeding delivery would be for a smaller number of eggs. Of course, no eggs were to be broken, and the boy was to deliver all his eggs taking none back to the store with him. The problem is how many eggs did he start out with?

Our lives are what we make 'em— That's what the wise men cluck; Hence the man without the makin' Is the man who's out of luck.

Teacher—"Your mother buys a hat for two guineas, a coat for five pounds and a pair of shoes for thirty-five shillings. Now, what's the result?"

Willie—"A row with dad."

A recent law school graduate dropped in to see his professor one day and during the visit, the professor solicitously inquired how his practice was coming along. "Well," replied the young man, "in the mornings, practically no one comes, and in the afternoon, the rush falls off considerably."

A well-known dentist received a package some weeks ago containing several neckties. Next day came a letter that read in part: "We hope you like the neckties we sent you. Enclosed you will find our bill for \$5.00."

The dentist resolved on reprisals. From his work bench he took two old plates and mailed them to the firm with a letter: "I hope these plates fit you or some of your help," the letter read. "Enclosed find my bill for \$50. I shall expect to receive a cheque for \$45 by return mail."

He—"I'm afraid I must get a wife

Farm Queries

Henry G. Bell, B.S.A., Dept. of Chemistry, O.A.C.
Address All Letters to Farm Editor, 73 Adelaide St. West, Toronto. All Answers Will Appear in this Column. If Personal Reply is Desired, Enclose Stamped and Addressed Envelope.

B. D.—I have some heavy clay and some black muck. The soil is sour. What kind of fertilizers would you put on this kind of land?

Answer—The first thing that is necessary is to see that the land is well drained. Next correct the sourness. In order to get at the correct amount of ground limestone or lime in other form that you should add, have your soil tested by the Reacto Soil test. Your Agricultural Representative has a supply of this test. If you are too far away from him, send a pint sample to the Dept. of Chemistry, O.A.C., and we will test it and will tell you the degree of acidity and how much lime will be necessary.

It is not only necessary to correct the acidity of the soil for the crops' sake, but if you add high phosphate or high potash fertilizers on a soil that is sour much of the phosphate and potash will be locked up in forms that are unavailable for plant use and you will not get the help from

about two bags per acre of 0-14-6 or 0-12-10. This fertilizer will not only help the grain crop including corn, but it will give the alfalfa or clover and timothy mixture that you sow a good strong start.

J. D. F.—1. How much have the prices of fertilizers and fertilizer materials been reduced since war time?

Answer—It is difficult to get definite figures that go back that length of time. However, we have succeeded in obtaining some and here they are: Average Wholesale Dealers' Prices.

			16 Per Cent. Super-phosphate
Year	5-8-7	2-12-2	
1914	\$39.38	\$26.98	\$24.00
1919	99.25	54.93	41.63
1924	45.00	33.65	24.00
1932	35.80	26.46	17.40

By these you will see there is considerable reduction.

There is another matter to take into account. In 1921 Ontario farmers were buying 1-8-1 fertilizer at \$48.50

units) for \$38.75, or one unit for \$1.62. Without multiplying illustrations, our point is that the higher analysis fertilizers that are now being sold provide the farmer with plant food at a great deal less cost per unit than he paid in pre-war or immediately post-war times.

2. Has fertilizer, in your opinion, come down in price corresponding to prices of farm crops?

Answer—This question certainly cannot be answered in the affirmative if one has in mind the wheat crop, but for such crops as potatoes, sugar beets, tobacco, celery, onions and alfalfa, the margin between the prices of a decade ago and those that prevail at the present, is not so widespread. Fertilizers judiciously chosen can still be used with considerable profit on the crops we have named. If one takes into account the residual effect on the clover or alfalfa crops following wheat and barley, it is possible to use fertilizers with profit even at present prices of these cereals.

3. Do you think soybeans will be a profitable crop to grow in western Ontario?

Answer—There seems to be many indications that soybeans will fill an important place in the crops of the province. The soybean industries that are now in operation claim a large market for the grain and for the oil which is expressed from the beans. Tests show that soybean meal from which the oil has been expressed is a highly valuable source of protein for Ontario farms. The field

orris powder or Pyrethrum powder with soap and water, one half pound of each to a gallon of water, will work wonders in giving relief to animals suffering from warble grub infestation. Many things can be used, with some good effect; as salt, tobacco, sulphur, or coal oil and pine tar. Watch closely and feel the backs of the cattle every week. The sooner the grub is treated, the less painful its presence will be to the animal. Dead grubs shrink and are then forced up out of the grub hole. Be kind to your cattle and rid their backs of the painful warble grubs. Every grub that you kill, will help reduce the number of flies that gad the cattle during the summer.

Italy Taxes Travelers Daily for Rooms Used

The traveler in Italy must pay a tax daily for the room in the hotel or in the boarding house which he occupies. This tax is in addition to the rent he pays the hotel proprietor or the landlord of the boarding place. It is called a sojourn tax and was put into effect in Florence January 1.

The rates vary with the season. Between March 1 and May 31 the levy is: Hotels, Luxury A, 3 lire, and 2.5 lire from June 1 to February 28. Luxury B, 2.5 and 2 lire, respectively. Class A, 2 and 1.5 lire; Class B, 1.3 and 1; Class C, 1 and 0.8; Class D, 0.5 and 0.4; Class E, exempt. Boarding houses, Class A, 1.3 and 1; Class B, 1 and 0.8 and Class C, 0.5 and 0.4

ceed in spite of us, not because of us.

Chilean Hospitals Closing For Lack of Medicines

Santiago, Chile.—Unless more for-
eign exchange is released here for the
importation of medical supplies, the
average Chilean may soon be forced to
doctor himself. The price of imported
drugs has reached fabulous heights
because of the marked difference be-
tween the official exchange rate and
that prevailing upon the "Black
Bourse" or the clandestine market.

Official and semi-official institutions
such as hospitals and the State Work-
men's Insurance Bank cannot, how-
ever, purchase foreign money on the
"Black Bourse" because of their posi-
tion.

Consequently, many hospitals are
either closed or are on the verge of
closing. Even in the capital the situa-
tion of some of the largest institutions
is precarious because of the shortage
of medicines and instruments.

Although there are numerous well
equipped laboratories of considerable
size here, many of them controlled by
British, German, American and French
interests and some of them branches
of well known international drug
houses, the situation cannot be easily
remedied.

Titles in Spain Cheap Now, Though Barred by Republic

Madrid.—Titles of nobility are
cheaper in Spain during these Re-
publican days than they were under
the monarchy. As a matter of fact,
titles are free.

Although the nobles have been
deprived of the right to use their
titles legally, society has not recog-
nized the republican measure and the
French custom of using titles social-
ly is observed here.

But the bearers of titles have
been relieved of heavy inheritance
taxes imposed under the monarchy,
which collected around 2,000,000 pese-
tas (\$369,000 at par) annually from
this tax and the tax on the creation of
new titles. The usual inheritance tax
was 12,000 pesetas, and 60,000 pese-
tas for the creation of a title. There
are about 1,800 titles in Spain.

Sometimes it's not what the prize
fighter does but what the referee says
that counts.

Chemistry, O.A.C., and we will test
it and will tell you the degree of acid-
ity and how much lime will be neces-
sary.

It is not only necessary to correct
the acidity of the soil for the crops'
ake, but if you add high phosphate
or high potash fertilizers on a soil
that is sour much of the phosphate
and potash will be locked up in forms
that are unavailable for plant use
and you will not get the help from
the fertilizers that you should expect.
The kind of fertilizers to use will,
of course, depend upon what crops
you are preparing to sow. For grain
crops, if the soil is in fairly sweet
condition and you do not have a sup-
ply of barn manure, it would be well
to add about two bags of 2-12-6 per
acre. If you have a supply of ma-
nure, in addition to the manure add

Year	5-8-7	2-12-2	Super- phosphate
1914	\$39.38	\$26.98	\$24.00
1919	99.25	54.93	41.63
1924	45.00	33.65	24.00
1932	35.80	26.46	17.40

By these you will see there is con-
siderable reduction.

There is another matter to take into
account. In 1921 Ontario farmers
were buying 1-8-1 fertilizer at \$48.50
a ton; 2-8-2 at \$59.00; 2-8-4 at \$65.50.
In 1932 1-8-1 and 2-8-2 are barred
from sale by the Dominion Fertilizer
Act. 2-8-4 is quoted at \$28.80.

Still another way to look at it,—a
farmer in 1921 buying 1-8-1 at \$48.50
was paying this amount of money for
ten units of plant food. For one unit,
then, he was paying \$4.80. In 1932
he can buy a 2-16-6 fertilizer (24

Get Rid of That SORE THROAT!

Any little soreness in the throat grows rapidly worse if
neglected. Crush some tablets of Aspirin in some water,
and gargle at once. This gives you instant relief, and
reduces danger from infection. One good gargle and you
can feel safe. If all soreness is not gone promptly, repeat.
There's usually a cold with the sore throat, so take two
tablets to throw off your cold, headache, stiffness or other
cold symptoms. Aspirin relieves neuralgia, neuritis, too.
Use it freely; it does not hurt the heart.

ASPIRIN

TRADE-MARK REG. IN CANADA

prontable crop to grow in western
Ontario?

Answer—There seems to be many
indications that soybeans will fill an
important place in the crops of the
province. The soybean industries
that are now in operation claim a
large market for the oil and for
the oil which is expressed from the
beans. Tests show that soybean meal
from which the oil has been express-
ed is a highly valuable source of pro-
tein for Ontario farms. The Field
Husbandry Dept. of this institution
has shown that good yields of high
quality soybeans can be produced in
Ontario.

4. What kind of fertilizer should I
use on soybeans?

Answer—Little work has been done
as yet regarding fertilizers on this
crop, but indications are that a fer-
tilizer fairly high in phosphate and
carrying a medium amount of nitro-
gen and potash gives a vigorous
growth of bean and a profitable in-
crease of yield. Probably a 2-12-6
or a 3-10-5 fertilizer will do best on
this crop at the rate of about two
bags per acre.

R. P.—Would it still be profitable
under present conditions and prices
of grain and other farm crops, to buy
good fertilizer?

Answer.—We have answered this
question very largely above. We no-
tice you mention "good fertilizer" by
which we assume you mean medium
high analysis fertilizers. Within lim-
its the higher the analysis of fertil-
izer the cheaper is the price of plant-
food per unit. But cheapness of plant-
food units is not the only guide, of
course, that one should exercise in
choosing what fertilizers he needs.
For instance, it would be folly to buy
a high nitrogen, low phosphate and
high potash fertilizer such as 5-8-7
for grain crops. For cereals, medium
low nitrogen, high phosphate and
medium potash is what is needed,
such a fertilizer as 2-12-6 or 2-16-6.
For root crops more nitrogen and
potash with slightly less phosphate
give good results. For instance, ex-
cellent returns have been realized in
our fertilizer demonstration work
from the use of 4-8-10 fertilizer on
potatoes, applied at the rate of 750
lbs. per acre.

WARBLE GRUBS COMING UP.

These painful cattle pests are caus-
ing much suffering to many animals
at this time of the year. Large live
grubs under the skin and usually sur-
rounded by pus, cannot be other than
painful. A boil is painful to a hu-
man and likewise a warble grub is
equally painful to a cow. A dressing
applied to a warbly back, of some pre-
paration that will kill the grubs and
promote quick healing is a merciful
and humane act. Mixtures of either

lord of the boarding place. It is called
a sojourn tax and was put into effect
in Florence January 1.

The rates vary with the season. Be-
tween March 1 and May 31 the levy
is: Hotels, Luxury A, 3 lire, and 2.5
lire from June 1 to February 28. Lux-
ury B, 2.5, and 2 lire, respect-
Class A, 2 and 1.6 lire; Class B, 1.3
and 1; Class C, 1 and 0.8; Class D,
0.5 and 0.4; Class E, exempt. Board-
ing houses, Class A, 1.3 and 1; Class
B, 1 and 0.8, and Class C, 0.5 and 0.4
lire.

Children under three years of age
are exempt, but those between three
and twelve are subject to one-half of
the tax, as are family servants.

These taxes renew those which ex-
isted during 1931 and supplant those
of 1932, which were calculated at 8
per cent. of a hotel bill under 60 lire a
day and 6 per cent. on a daily bill ex-
ceeding 60 lire.

HOME LIFE

No piled up wealth, no splendor of
material growth, no brilliance of
artistic development, will permanent-
ly avail any people unless its home
life is healthy, unless the average
man possesses honesty, courage, com-
monsense, and decency; unless he
works hard and is willing at need to
fight hard, and unless the average
woman is a good wife, a good mother,
able and willing to perform the first
and greatest duty of womanhood,
able and willing to bear and to bring
up as they should be brought up,
healthy children, sound in body, mind
and character, and numerous enough
so that the race shall increase and
not decrease.

"This is My Secret for Keeping My Family Well"

Mrs. Russell Ward, Hilton Beach, On-
tario, writes: "This is my secret for
keeping my family of six well. For all
my children I have used Baby's Own
Tablets, and I cannot praise them too
much. If my baby is fretful, I give her
a Baby's Own Tablet, and in a short
time she is happy. If there is sign of
a cold, I give the tablets, and she is
soon all better. If she is constipated, I
find the tablets a wonderful regulator.
The tablets are fine during teething. I
wouldn't think of being without a box
in the house".
"I have practically reared my family on

DR. WILLIAMS'

necks—we sent you. Enclosed you
will find our bill for \$5.00."

The dentist resolved on reprisals.
From his work bench he took two old
plates and mailed them to the firm
with a letter: "I hope these plates fit
you or some of your help," the letter
read. "Enclor ~~all~~ had my bill
for \$50. I shall expect to receive a
cheque for \$45 by return mail."

He—"I'm afraid I must get a wife
with some money."

She (candidly)—"You'll hardly get
her with anything else."

Norah—"Maymie has suffered much
for her belief."

Muriel—"Good gracious. What is
her belief?"

"That she can wear a size four shoe
on a number seven foot."

"Now, Willie, I'll give you one more
chance. Whose emblem is the leek?"
"The plumber's, sir."

Few of us pay the doctor as prompt-
ly as we want him to come when we
call him.

When Elsie Betters hung out a sign
recently in Brushville showing that
she had opened a beauty shoppe, Jerry
Hoban painted one in his cigar store
saying that he had Poppe on ice, the
Emporium General Store announced
the arrival of Toppes for Spring as
well as Moppes for the kitchen, and
Andy Wilks, the garbage man, not to
be outdone, put an advertisement in
The Brushville Bugle saying he was
now prepared to haul away all kind
of Sloppes at popular prices.

Baby's Own Tablets," writes Mrs. Roy
Holland, Dunnville, Ontario. "They
have saved my children from many a
sick spell."

Hundreds of other mothers have writ-
ten their heartfelt thanks for Baby's
Own Tablets, the absolutely SAFE
remedy for the common illnesses of
babies and children—teething troubles,
simple fevers, colds, summer complaint,
colic, upset stomach and the peevish-
ness that indicates something wrong.

Council Standard Sheets, and 26 gauge sheets, now \$4.90 per 100 sq. ft. 28 gauge sheets remain at former price of \$4.40 per 100 sq. ft. Led Hed roofing nails reduced to 15c per lb.

In Memoriam

MINAKER—In loving memory of our dear sister, Lila M. Minaker, who died March 15, 1931.

My heart is filled with memories
That are cherished to the end;
The memory of our dear sister,
Who always was our friend.
As we sit and wonder
Just why she had to go,
Her voice is soft as a baby's breath,
Whispering "don't you know".
Its because God gave His wonderful love
For her, who was one of the best,
Has taken her from this weary world
To Heaven and Eternal Rest.

Ever remembered by Brother and Sister-in-law, Dave and Laura Harrison

In loving memory of my dear daughter, Mrs. James Minaker, who died March 15, 1931.

Oh snow fall gently on the spot
That covers her dear form,
Blow gently, winter winds,
Above her resting place.
Summer suns, summer rains,
Sweet Flowers from life can kiss,
And thoughts shall bloom.
That she is free from sorrow
Such as this, but though tears
That fall for her through sorrow,
Laden hours, deep regret,
That clouds the day,
Blossom fragrant flowers.
Now we are requested
To thank friends for their kindness,
Sympathy here, so now, Lila, precious
Darling, we will leave you here,
Calmly sleeping, sweetly sleeping,
To wake to pain, to sorrow never more.

Ever remembered by your loving Mother

In loving memory of Harold, son of Mr. and Mrs. W. B. Harrison, who departed this life March 11th, 1931.

Though earthly ties are broken,
In life we'll meet no more,
Our thoughts are still with you, Harold,
On yonder Distant Shore.

The God who gave, has taken,
And Heaven a dear boy won,
Although our hearts are broken,
Thy Will, Oh God, be done.

Two years have fled since thou hast died,
We did not know the pain you bore,
We did not see you die,
We only knew you passed away
And never said good bye.

Father, Mother, Brothers and Sisters.

In loving memory of our darling wife and mother, Mrs. James Minaker, who departed this life March 15th, 1931.

Days of sorrow still come o'er us
Tears of sorrow often flow,
Memory keeps our loved one near us,
Whom God claimed two years ago.

Dear Mother, where mother is laid,
Sweet memory that never will fade.

Though your loving voice is silent,
And your true heart ceased to beat,
Yet we miss your well known footsteps
And your face we used to greet.

EASY G.M.A.C.
TERMS

FIRST came the Chevrolet Master Six—and Canada responded with the greatest welcome given a Chevrolet since 1929. Then, up stepped the leader with another entirely new line of cars, the Standard Six. Down went the Chevrolet base-price to the lowest figure in history for a full-size, six-cylinder closed car. And the spotlight of public interest flashed brighter than ever on Chevrolet.

Now — for the first time — there are two Chevrolet Sixes — the Standard and the Master. Body-styles for everybody. Prices for several different groups of buyers. But only one standard of quality — the very same high standard that has made CHEVROLET the greatest name in low-priced motoring.

Both Standard and Master lines offer Air-Streamed Bodies by Fisher—safety glass windshields—and that newest General Motors sensation: Fisher No-Draft Ventilation. In the Standard Six, you can enjoy all these advantages at the lowest operating cost of any full-size car on the road.

Whichever you choose—the mere fact that the leader built it is assurance of outstanding value. But you'll never really know how outstanding it is till you come to our showrooms—see it, drive it, yourself!

CHEVROLET LOW PRICES
STANDARD SIX - - \$723 to \$770
MASTER SIX - - \$789 to \$977

Dear _____
Sweet _____
Sweet _____

Though your loving voice is silent,
And your true heart ceased to beat,
Yet we miss your well known footsteps
And your face we used to greet.

We think of you in silence
And your name we oft recall,
But there is nothing left to answer
But the picture on the wall,

Sadly missed by Husband and Family.

In loving memory of my dear sister,
Mrs. James Minaker, who departed this
life March 15th, 1931.

We do not forget her, we love her too
dearly,

For her memory to fade from our lives
like a dream;

Our lips need not speak, when our hearts
mourn sincerely.

For grief often dwells where it seldom
is seen.

In our home she is fondly remembered,
Sweet memories cling to her name;
Those who loved her in life sincerely,
Still love her in death just the same.

From your devoted sister, Annie.

Here and There

Fish caught in the sea fisheries of Canada in 1932 totalled 711,917,800 pounds valued at over \$11,000,000. Of the total catch British Columbia accounted for 327,631,900 pounds; Nova Scotia, 194,788,800 pounds; New Brunswick, 98,594,800 pounds; Quebec, 67,164,300 pounds and Prince Edward Island, 23,738,000 pounds.

The Place Viger Hotel, Montreal, centre for thirty-odd years of the French-Canadian political, legal and social life of the Province of Quebec, has been given a further lease of life under Canadian Pacific direction until October 1. It was to have closed its doors permanently January 31, but many and powerful representations brought about the respite.

A record-breaking ride through the Rockies on their three-car special clipped four hours from the regular trans-continental train schedule in what Canadian Pacific Railway officials believe to be the fastest run ever made for the 505 miles from Vancouver to Field recently. The run, made for the Colbourne-Jones Company playing "Too True to be Good," started four hours after the regular train had left Vancouver and caught up with it at Field.

THE CANADIAN BIRCH

Furniture Made From Yellow Birch
Hard to Popularize.

From early Egyptian and Babylonian days down to the present there have been many different styles designs in furniture. References to them have occurred in the works of classic authors, and articles on furniture frequently appear in household and technical magazines. Names such as Louis XIV., Louis XV. and Louis XVI., Queen Anne, William and Mary, Chippendale and Hoppelwhite will survive for all time. It is recognized that different historical periods were often characterized by innovations in decorative effects, and that many furniture designs were named after the reigning monarch or the originator of the design in question. It is quite natural, therefore, that the woods commonly associated with high-class furniture manufacture to-day should be the woods, such as mahogany, walnut and oak, which were used by famous cabinet makers. Birch was never used extensively by any of the old craftsmen, but the time seems now to have arrived when the value and adaptability of Canadian yellow birch for high-class furniture should be more fully realized.

While a considerable part of the hardwood used in Canada's furniture industry is imported, the Dominion possesses a hardwood in its yellow birch that, possibly, has not obtained the recognition that it deserves. This beautiful species, known botanically as Betula lutea, is not really regarded in Canada as a superior decorative wood, and its present use is principally in lower and medium grade furniture, as well as for backing, slides, drawers and partitions of articles of high quality.

It is significant that more or less the same woods have been used for furniture from the earliest to the present times, so the difficulty of introducing Canadian yellow birch into the select company of mahogany, walnut and oak is apparent. Canadian yellow birch possesses the requisite qualifications but it lacks an historical background. No niche has been carved in the public consciousness for yellow birch, and little information concerning its properties has been distributed. Moreover, both to use and to demand yellow birch in high quality furniture would be departures from established custom.

Diminishing Wild Fowl Supply.

The Board of Directors of the American Game Association through its president recently declared that "the future of water fowl hunting depends upon the active interest of sportsmen in restoring and perpetuating the water fowl supply." A large number of the wild fowl that furnish shooting for American sportsmen, are bred in Western Canada.

ON FAME ABROAD

Canada Contributes Much to Arts
and Sciences In Neighboring
Republic.

Many of the most eminent men in the professions, in the arts and in the sciences in the United States today were born in Canada and most of them retain their love for their native land and their affiliations with the places of their birth, childhood and education. In the last three decades a country of ten millions of peoples has sent to a country of 130 millions hundreds of men who have distinguished themselves in their particular fields of endeavor, and others have gained international fame. Dr. Lionel Stevenson, of the State Teachers' College, Tempe, Arizona, points to this fact and illustrates his points in an interesting paper which appeared in a bulletin of the Canadian Authors' Association. While he deals primarily with writers, there are others in other fields who went from Canada to the south to achieve fame and fortune.

Western Ontario has made her contribution. In music there is Edward Johnson, from Guelph, the internationally known tenor, who still maintains an active interest in his home city and is a frequent and welcome visitor there. Guelph also contributed Arthur Cutten in the field of finance and commerce, and he recently remembered his native city by donating a fine public golf course.

Dr. Stevenson mentions in his article other distinguished Canadians in the States, who came from Western Ontario. There is Kerr Duncan MacMillan, president of Wells College, who was born in Mount Forest. In the study of international relationships, probably the two most outstanding authorities originally came from this district. They are James Brown Scott, born at Kincardine, and James T. Shotwell, of Columbia University, born at Strathroy and educated at the University of Toronto. The current "Who's Who in America" lists 614 persons of Canadian birth.

"I select only a few outstanding samples," Dr. Stevenson continues. "Kenneth C. M. Sills, president of Bowdoin College, born in Halifax, is the author of a book of poetry, 'The First American'; Frank Parker Day, president of Union College, born in Shubenacadie, N. S., educated at Picton Academy and Mt. Allison University, has written books of fiction, poetry and essays, including 'River of Strangers,' 'Autobiography of a Fisherman' and 'Rockbound'; George Barton Guttin, president of Colgate University, born in Amherst, N. S., educated at Acadia University, has written half a dozen books on psychology.

"Among professors of classics are Henry Rushton Fairbairn, of Cornell

University, Whitred Pitt Mustard, of Johns Hopkins University, and Frederick William Shipley, of Washington University, in St. Louis, all three born in little Ontario towns and educated at Toronto University.

"The numerous Canadian authorities in theology include Shirley Jackson Case, born at Hatfield Point, N.B., educated at Acadia University, now a professor at the University of Chicago; Joseph Alexander Leighton, born at Caledon, Ont., educated at Toronto University, now a professor at Ohio State University, and Douglas Clyde Macintosh, born in Breadalbane, Ont., educated at McMaster University, now a professor at Yale; each of these is author of a long list of books which treat of theological and philosophical subjects.

"Political Science and Economics may be represented by William Bennett Munro, of Harvard University, and Dean J. E. LeRossignol, of the University of Nebraska; the latter's many books on Socialism and related topics are interspersed with volumes of charming sketches describing the life of his boyhood home in Quebec.

"Professors of English include A. H. R. Fairbairn, of the University of Missouri, author of 'The Making of Poetry'; George Roy Elliott, of Amherst College, author of 'The Cycle of Modern Poetry,' and Arthur Beaty, of the University of Wisconsin, author of 'Wordsworth's Doctrine and Art in Their Historical Relations.' The list might be extended indefinitely, but enough examples have been cited to indicate that Canadians pursuing scholarly careers in the United States do not become desiccated pedants, but find time for writing of a sort which interests a wide public."

WILD FRUITS IN THE WEST.

Among wild fruits cranberries, raspberries and blueberries are the principal crops in the west. Large quantities of all these are gathered annually. Indians in wagons, the floors covered with raspberries in pails, may be seen frequently in summer on the streets of Prince Albert and other places selling their wares. Cranberries are plentiful and find a ready sale in the villages along the railway lines north of the Saskatchewan. Many are shipped to outside points. A merchant in one of these tiny hamlets embracing two or three stores, hotel and a couple of elevators, last year purchased 10 tons of blueberries collected in the west.

A NEW CANADIAN ROSE.

A new rose has been introduced by the Canadian Government to the Experimental Farm at Ottawa which is sufficiently hardy to withstand the winter at Ottawa with no special protection. This rose is described as having a handsome bush with distinct foliage, the leaves bright goldish green, seven leaflets. The flowers are large, single, pale pink on opening, fading to white. It blooms early in the month of June.

PRICE---or QUALITY?

In buying caskets and other burial goods, the Funeral Director has the same problems as a merchant in any other lines.

In our establishment we have decided to buy only merchandise of "GOOD QUALITY" and sell at the lowest price possible.

Throughout all our dealings with our patrons, we consider ourselves, under a solemn professional obligation to protect their interests by the use of our modern equipment and myriad of services.

Lochlin Locals

Miss Watson from Bellville is visiting her sister, Mrs. Levi Pringle. Friends of Mr. L. Pringle will be sorry to hear that he is seriously ill.

Miss Pearl Pocock, formerly of Burnt River and Mr. Harvey Fairie of Haliburton were united in marriage on February 28th by Rev. Mr. Fisher of Coboconk. The happy couple left, mid showers of confetti, for their home near Donald.

The death of Mr. Frank Hague on March 3rd, has cast a gloom over this neighborhood. Much sympathy is felt for Mrs. Hague and family.

LOCAL LINES

The Echo will be pleased to receive from you for publication any news items of interest.

Mr. Bert Carpenter was a visitor in Toronto last week.

Several cars were snowbound by Thursday's storm and were unable to leave the Village until Sunday.

Mrs. Fred Weston of Toronto spent a few days in Minden last week owing to the death of her mother, Mrs. Henry Stevens.

Mrs. A. Johnson received word by air mail from her daughter, Mrs. Geo. Richards, of Hollywood, California, stating that they had escaped the earthquake catastrophe of Friday last.

Mr. and Mrs. George Dyson, who have been residing near Onondaga Camp, Bob Lake, moved to Minden Village this week, and are occupying a portion of the residence on the M. Brown Estate.

A St. Patrick's party was held by the Mission Band of the United Church on Wednesday evening, when the children enjoyed several hours of games and amusements.

DENTISTRY

Dr. M. C. Mills, Dentist, will be at Minden Monday afternoon and Tuesday morning and at Haliburton Tuesday afternoon and Wednesday all day of each week.

To Carry Lantern

An Act to amend the Highway Traffic Act is awaiting a third reading and provides that every pedestrian on the King's Highway after dark must carry a lantern. The Act reads as follows:

"Walking or travelling on foot on the King's Highway after dusk and before dawn, every person shall carry a lighted lamp in such a position clearly visible for a distance of 200 feet in each direction." This Act is intended to avoid accidents on the highway.—Ex.

Notice to Ratepayers Township of Minden

On April 1st, five per cent. will be added to all arrears of taxes in the Township of Minden. Costs will be added for any demand made in person or otherwise after the above date, and collection made when within reason.

A. J. PUFFER, Collector

OBITUARY

MR. FRANK HAGUE

The above named respected resident of Snowdon Township passed away on March 3rd, 1933, following a period of failing health, of heart trouble, but was only confined to his bed for some three weeks.

The deceased Mr. Hague was born at Three Mile Bay, Jefferson County, New York State, April 8, 1870, and was therefore nearly sixty-three years old at the time of his demise.

At the age of twelve years he moved with his parents to Snowdon Township and settled at Richie's Falls, where, with the exception of five months, he continued to reside until the time of his death.

He was married in 1896 to Miss Mary Loucks, daughter of the late Mr. Jacob Loucks, of Minden Township. To this union there were born five sons and one daughter, namely, Allan and Norman of Lochlin; Oliver of Pontiac, Mich.; Lily and Nobel at home. An infant son passed away several years ago.

The funeral took place to Ingoldsby United Church on Sunday, March 5th, and was very largely attended. The services in the church and at the grave were presided over by their pastor, Rev. H. Wilkinson, of Haliburton.

Messrs. John H. Hicks, Chas. Hicks, Levi Burk, Duncan McIntosh, Chas. Minaker and Joshua Bloomfield acted as pallbearers.

The floral offerings were very pretty.

His weary hours and days of pain,
His troubled nights are passed,
And in our aching hearts we know
He has found sweet rest at last.

NOTICE

To the Subscribers of the Dysart Municipal Telephone System:

Subsection (h) Section 29 of the Telephone Act enacts as follows:

Subscribers are required to forward to the secretary, or the person appointed for that purpose, on or before the tenth day of each month, all amounts due the System for long distance messages sent by them, and also for conversations transmitted through their telephones by non-subscribers during each preceeding month.

Subsection (n) Section 29 further enacts as follows:

Each subscriber shall be responsible for prompt payment of all charges for messenger or Long Distance service furnished to himself or others in respect of conversations transmitted from the instrument upon the premises of such subscriber, and if payment is not made promptly, the Commissioners shall have the right to refuse to furnish similar service until such payment is made.

Therefore owing to the difficulty we are experiencing in making our Long Distance collections, the Commissioners of this System passed the following resolution, at a meeting held on the 28th day of February last:

"That all subscribers or renters who are in arrears for Long Distance calls for 30 days or over, be notified that after ten days notice all Long Distance Calls

Do You Cough?

DON'T be that worst pest of all—the chronic sufferer from colds who passes germs on to family and friends. Build resistance with Dr. Pierce's Golden Medical Discovery. Read what Mrs. Emily Wright, of 478 Henry St., Woodstock, Ont., says: "At one time I suffered from bronchial trouble—had a nasty cough that lasted for several weeks. I was rundown, had no strength, was quite nervous and ate very little. I used Dr. Pierce's Golden Medical Discovery and it rid me of the aggravating cough, built up my system, increased my appetite and I felt stronger and better in every way."

Write to Dr. Pierce's Clinic, Buffalo, N. Y., for free medical advice.

A 115-Year-Old
CANADIAN INSTITUTION

That Is Still Young

The strength of Canada is in her youthful, pi-
neering, ever forward-facing, courageous spirit,
tempered with old wisdom. Canada's strength
is the composite strength of her constituents—
institutions as well as individuals.

The Bank of Montreal, 115 years old and true
to Canadian history and tradition, applies its
experience and adjusts its service constantly to
changing conditions, to the end that it may
provide safe, helpful and convenient banking
for the people and business of the Dominion.

BANK OF MONTREAL

Established 1817

TOTAL ASSETS IN EXCESS OF \$750,000,000

Fenelon Falls Branch: O. GEIGER, Manager
Haliburton Branch: H. P. FERRIER, Manager.

Therefore owing to the difficulty we
are experiencing in making our Long Dis-
tance collections, the Commissioners of
this System passed the following resolu-
tion, at a meeting held on the 28th day of
February last:
"That all subscribers or renters who
are in arrears for Long Distance calls for
30 days or over, be notified that after
ten days notice, all Long Distance Calls
will be refused unless accompanied by
cash, and that a list of Defaulters be
handed to the Operators, who will be
responsible for such calls."
EDGAR BENTHAM, Sec'y-Treas.

Pass Resolution

L.O.L. No. 11, Glamorgan, at a recent
meeting passed the following resolution:
WHEREAS the supporters of Sepa-
rate Schools, are agitating for a series of
amendments, to the Assessment Act of
the Province, so as to provide for a
division of the Taxes, received by the
Municipalities, from Incorporated Com-
panies and Publicly and Privately owned
Utilities, on the basis of the Roman
Catholic population of the Province.
AND WHEREAS the Separate School
Act of 1863, later incorporated into the
B.N.A. Act of 1867, specifically provides
that only the taxes from the realty of
Separate School supporters, when so
directed, was to be allocated for the sup-
port of Separate Schools.

AND WHEREAS the Act of 1863, was
understood by all the consenting parties
thereto, to be a final settlement of the
question.

AND WHEREAS further amendments
in 1886, provided for the division of
taxes, on shares of Incorporated Com-
panies, whereby the Director of such
Companies, on the request of Separate
School supporters holding shares therein,
are permitted to divert the taxes, accru-
ing on such shares, to the support of
Separate Schools.

BE IT THEREFORE RESOLVED
That this Loyal Orange Lodge, No. 11
of Glamorgan, goes on record, as strongly
opposing the present demands of the
Separate School Authorities, for such a
division of the taxes, properly pertaining
to the support of the Public Schools.

WE are aroused at this continual de-
mand, of the Separate Schools for public
money, to conduct their own religious
system.

WE not only oppose these demands of
the Roman Catholics, but we deem it our
duty to advise the Government, that the
Public School supporters will not con-
done further extension, of the privilege
of sectarian schools, at the expense of the
Public School system of the Province.

WE would also call upon our repre-
sentative, in the Legislature to vigour-
ously oppose this renewed agitation, and
to do all in his power to maintain, safe-
guard and strengthen, the public non-
sectarian school system.

That this resolution be sent to the
Premier, the Hon. G. S. Henry, Minister
of Education, our local member of the
Legislature and the Press.

Sunny Katy Kats for Others
Katy was never a very strong girl
and her work in a laundry taxed
her strength severely. In order to
save as much as she could to help
out at home, she used to walk long
blocks to her rooming-house, and
the change from the steam-laden
atmosphere of the laundry to the
cold of the outside was also harm-
ful. At length she caught a bad cold
which she could not shake off, and
when the doctor was called he
found that she had consumption.
She was sent to the Toronto Hos-
pital for Consumptives, and al-
though very downcast at first, she
had not been there long before she
decided that she was fortunate in-
deed, for within a short time the
wonderful treatment and care which
she received began to have their
effect. She has gained in weight,
her usual sunny spirits have re-
turned, and during her "working
hours" she is able to knit bed
jackets for other patients.
The doctors and nurses are hope-
ful that she will soon be well
enough to return to work, but if it
had not been for the Toronto Hos-
pital her chance for recovery would
have been small.
The hospital needs funds, how-
ever, to enable it to carry on its
work. Will you help by sending a
gift to G. A. Reid, 223 College St.,
Toronto &

BIGGER BUSINESS

By Richard M. H. Dicker

The door shut to with a bang behind the portly and prosperous figure of Mr. Timothy Biggs. The bang echoed down the passage. But in the room Mr. Biggs had just left it assumed the proportions of a thunderbolt. Had it really been a thunderbolt it could not have stunned the occupant of the room more completely.

Peter Millett sat staring at the door in dismay, and then he buried his face in his hands.

"That's the last straw," he muttered to himself.

It was almost a year since he had started in business as an agent. He had begun with high hopes, investing every penny he had, but before many months had passed he had had to admit that his business was making no headway, and then, when the golden opportunity came and the turn of the tide was in sight, Mr. Biggs had strode out of his office, slamming the door after him.

That morning Peter had received a letter from the Vantex Manufacturing Co., commending him on the way he had pushed a commodity of theirs, and asking him to do the same with the "Thrimble," an ingenious thimble to which was attached a gadget for threading needles. The letter held the promise that if Peter were successful in his "pushing" of the "Thrimble" the company would appoint him their sole agent for the county. "We are particularly anxious to obtain orders from Mr. T. Biggs and Mr. Archibald Drake for their respective chains of stores," the letter added.

Obtaining the agency from the Vantex Company had meant more than just success in business, for Peter could have married Diana Martyn. It had been love at first sight on his part when he had engaged her as his typist a year ago, and not many months had passed before they were engaged.

Peter groaned inwardly as he heard the door shut softly and he glanced up to see Diana enter.

"Why, Peter darling, what has happened?" she cried, putting her arms round him.

"I'm a failure," said Peter, dismally.

"Oh, Peter, what nonsense! Tell me about it."

She listened to the story of Mr. Biggs. She sat for some time thinking gravely, and then she jumped up with sparkling eyes.

impressed. In desperation Peter played his first card.

"I would like you to see my Sales Manager, Miss Martyn," he said. "I believe I heard her return, and I think she could give you a better idea of the appeal of this commodity than I could."

He rang the bell, and Diana, still dressed as a page-boy, appeared.

"Ask Miss Martyn to come here, William," Peter commanded.

Behind Mr. Drake's broad back Diana winked deliberately before disappearing into the "Sales Manager" cupboard. In a few moments she reappeared, transformed, dressed in a smart costume and high-heeled court shoes, with a brown curly wig. She was charming, efficient.

Mr. Drake looked with agreeable surprise at her, and Diana quickly had him listening attentively to the merits of the "Thrimble."

Peter sat watching, amazed at Diana's performance. Her voice was vibrant with a passionate belief in her subject: here was no acting, felt Peter. And he was right. Diana was intent upon Drake giving the hoped-for order, was willing him to do so, for she knew that not only the future of the business, but her own and Peter's happiness, depended upon her success.

And Diana won. Listening to her lauding of the "Thrimble," Mr. Drake was quite carried away, and without further hesitation signed an order, the magnitude of which surprised even Peter.

With a flashing smile and a promise to send a typist to take down the details of the order, Diana disappeared, this time into the cupboard marked "Typists."

Overjoyed at the change in the situation, Peter handed Mr. Drake an excellent cigar.

"Nice place you've got here, Millett," said the great man, graciously. "And a smart sales manager as well. Very charming woman, Miss Martyn."

"I quite agree with you," stammered Peter. "I don't know what I'd do without her."

Mr. Drake glanced interestedly around him. "I had no idea these old buildings had such convenient suites of offices," he said, and as Peter struggled for a reply, Diana reappeared as a typist, demurely clad in an overall, with low-heeled shoes in place of the "Sales Manager's" smart court shoes and with a neat wig of dark bobbed hair concealed on her own golden locks. Austere she took down Mr. Drake's order, and when Peter dismissed her she returned to the "Typists" cupboard and started typing vigorously.

Peter and Mr. Drake parted on the best of terms, and the moment the visitor had gone Diana dashed from the cupboard.

Keeping in Shape

Miss Minna Gombell, Hollywood feature player, keeps in good shape for her work by plenty of strenuous exercise.

"Just you wait," said Peter. "We'll get him. If Drake buys a thing, Biggs will follow suit."

He picked up the telephone and got through to Biggs' store.

"Hello? Is that Mr. Biggs? This is Millett speaking. You came to see me this morning about the 'Thrimble'."

He paused, listening. "Did you say you cannot reconsider? I'm sorry, but I suppose you know that Drakes have placed a large order and are going to push 'Thrimbles' in all their shops? What's that? Oh, yes. We can get immediate delivery. How many? 1,000 gross? Thank you, Mr. Biggs. Your order shall have my immediate attention. Good-bye."

Peter jumped up and threw his arms around Diana. "You're a marvel and a perfect darling," he cried. And now, when do we get married?"

"But what about your staff?" Diana asked.

Gold-Rush Days in Africa

A new Eldorado in the heart of Africa? The London press is asking this question; and English eyes are focused on Kakamega, in the heart of Kenya Colony. Any day now, the more sanguine hope, we may hear of a gold strike "rivaling in importance that of Alaska." Writing in the London Daily Mail, Capt. Hugo Dunkerley vividly describes the picturesque "gold rush" to Kakamega, 200 miles from Nairobi, capital of Kenya Colony, and north of Lake Victoria:

"The gold-fields are about thirty miles long by fourteen miles broad, and already prospectors are going farther afield in the hope of making fresh discoveries.

"Kakamega is different from any other gold-field. The prospectors are amazingly varied. On one claim will be found a retired Indian Army colonel who happened to be farming at Eldoret but, having been eaten out by locusts, decided to look for gold.

"Next door may be a hard-bitten veteran who has seen the rushes in Australia in the early days and later, migrating through South Africa and the Rand, eventually fetched up in Kenya.

"Another is an ex-naval officer who gave up the sea after the war in order to try his luck ashore.

"Lawyers, doctors, architects, surveyors—all types are there with the one ambition to find the main reef. At first they were content with alluvial gold, and many made a living right from the start, but to-day the definite evidence that there are reefs waiting to be found holds out the prospect of wealth which was hardly dreamed of before. They are a good type, quiet, decent-living folk, many of whom would be more at home in a London suburb.

"The women, too, are as keen as the men. Many have adopted trousers for working at Kakamega, simply because they are more convenient, and there is not so much time for washing frocks as there used to be on the farms."

Invocation

Oh, be more still than ever snow, upon The last, the final crackled leaf of fall. More silent be, more silent be than all The stars before the pale and dubious dawn.

Within the silence let us sit and stare Into the feathered spirals of the fire And, for the moment, put aside desire To watch the luminous heart that glitters there.

Let us not desecrate this hour with sound Of anything except our treasured breath.

Let Children Help Themselves

Never Discourage Child's Natural Impulse to do Things

The baby was all ready to go out for his walk when his aunt arrived.

"Goodness, Rose, you can't let him go that way!" she cried. "His cap is on backward and his overshoes are—"

"Sh!" whispered the baby's mother. "He's all right. He loves to put his things on himself and I let him. I'll find some excuse later to fix things."

Little by little his mother got him oriented, at time when his attention was distracted by something interesting.

He had done a job and a good one for his age. He had shown a willingness to help himself, and wasn't his mother wise to take the little seed and treasure it and let it grow?

Talking of seeds! Suppose we put one in the ground and then told it what to do—dug around it every day and scolded, "No, little seed, you mustn't do it that way, do it my way. Why that little sprout is all crooked and it's going in the wrong direction! See, come up straight to the light. There, that's better!"

By the time the seed got through minding us it would sign, "It's too hard. I just can't do it right. I'm trying as hard as I can to live but it's no fun this way, too much trouble. I was happier asleep. I'll just go back to sleep again." And that is the end of that one little life germ.

So it is with children. True, some are weeds, and need to be treated as such, but most of the urges that crop out in tiny children can be watered into real plants or flowers if we let nature alone and do not start in dictating whys and wherefores.

In a few short months this baby will have established a habit, the best habit in the world, that of helping himself. Moreover his own quick eyes will show him how to improve on himself. Children learn faster by their own observation in early years than they do by pages of telling.

We can guide natural urges as best we may, but the important thing is never to discourage, or discount.

Children of two dress themselves, except ties and buttons, and if their clothes are simply made, dress themselves completely. Children are not the helpless folk we think they are. They cannot do things our way, but it is by our way we judge them.

"No, no, that's not the right way!" has spelled defeat for so many infant urges it is a wonder they have any heart left, for anything. Children succeed in spite of us, not because of us.

Address All Letters to Farm Questions Column, West, Toronto. All Answers in this Column. If Personal Reply Desired, Stamp and Address.

B. D.—I have some heavy clay and some black muck. The soil is sour. What kind of fertilizers would you put on this kind of land?

Answer—The first thing that is necessary is to see that the land is well drained. Next correct the sourness. In order to get at the correct amount of ground limestone or lime in other form that you should add, have your soil tested by the Reacto Soil test. Your Agricultural Representative has a supply of this test. If you are too far away from him, send a pint sample to the Dept. of Chemistry, O.A.C., and we will test it and will tell you the degree of acidity and how much lime will be necessary.

It is not only necessary to correct the acidity of the soil for the crops, but if you add high phosphate or high potash fertilizers on a soil that is sour much of the phosphate and potash will be locked up in forms that are unavailable for plant use and you will not get the help from

Why, a poor darling, what has happened?" she cried, putting her arms round him.

"I'm a failure," said Peter, dismally. "Oh, Peter, what nonsense! Tell me about it."

She listened to the story of Mr. Biggs. She sat for some time thinking gravely, and then she jumped up with sparkling eyes.

"I've got it, Peter; we'll get that order yet. And Mr. Drake, too. You wait and see. I'll tell you what's wrong. Men like Mr. Biggs want impressing. A small office and one typist aren't sufficient; you want a suite of offices, a large staff and—"

"Wait a minute, darling, wait a minute. I know all that. But it costs an awful lot of money, and I haven't much left."

"Silly!" laughed Diana. "You don't want much money for my scheme. Listen! I'm going to turn these three big cupboards into rooms—one for the staff, the next for the typists, and the other for your sales manager. A signwriter will soon put the names on the doors."

"And where are you going to get the staff from?" said Peter, sarcastically.

"You're looking at 'the staff.' I'm it."

"You! Why—how—?"

"Yes, me! I'll be your office boy dressed up in buttoned jacket and pill-box hat; then your smart lady sales manager, and finally the typist. I'm a marvellous actress. And you won't recognize me when I'm dressed for the parts. Don't you think that's a great idea?"

"You've taken my breath away. I—I—well, I believe you have struck a good idea. I'm game to try it."

"Fine! Now, how long have we before Mr. Drake comes?"

Peter glanced at his watch. "Five hours."

Those five hours were the busiest, most hectic the dazed Peter had ever known.

Ten minutes before Mr. Drake was due the transformation was complete. On the doors of the cupboards were signs in gilt letters announcing "Sales Manager," "Staff," and "Typists," and on hooks in the cupboards hung a variety of garments suitable to the roles Diana was to play.

There was a sharp "rat-tat" on the outer door, and Diana, in the smart uniform of a page-boy, with her own short, fair curls brushed tightly to her head, emerged from the staff cupboard and walked to the door. Peter could scarcely refrain from laughing, but he managed to control his features as Mr. Drake was ushered in. Diana walked silently into the staff cupboard, and Peter greeted his client effusively.

He explained as best he could the merits of the "Thrimble," but, to his horror, Mr. Drake did not seem very

neered shoes in place of the "Sales Manager's" smart court shoes and with a neat wig of dark bobbed hair concealed on her own golden locks. Austerly she took down Mr. Drake's order, and when Peter dismissed her she returned to the "Typists" cupboard and started typing vigorously.

Peter and Mr. Drake parted on the best of terms, and the moment the visitor had gone Diana dashed from the cupboard.

"How's that, Peter? How's that for bigger business?"

Peter pinched himself. "Marvellous! I can't believe it's true."

At that moment, they heard a step in the passage, and Diana only just had time to run into the "Typists" cupboard before Mr. Drake again entered the office.

"Ah, Millett," he said. "There's one point I overlooked. Would it be possible for me to discuss it with Miss Martyn?"

Peter was taken aback. Diana was in the "Typists" cupboard, still dressed as a typist. He took a deep breath and pulled himself together.

"I'll call the boy to fetch her. William!" He paused. "William!"

And then: "How foolish of me. I had forgotten the boy has gone out on an errand. My other boy is ill with influenza," he explained.

He raised his voice, hoping that Diana would hear. "I will go and fetch Miss Martyn myself."

"Don't bother, Millett," said Drake. "I'll just pop in and see her." He walked towards the door marked "Sales Manager," and Peter's heart missed a beat. He jumped up and managed to intercept Mr. Drake before he reached the door. Peter raised his voice still louder, praying that Diana would take the desperate "cue."

"I'm afraid Miss Martyn is engaged for a few moments, but if you will take a seat she will not be long."

Mr. Drake sat down, and Peter heaved a sigh of relief. The minutes ticked by, and just when Peter had given up hope Diana reappeared dressed as Miss Martyn.

"Oh, Miss Martyn, Mr. Drake wanted to see you," Peter said, thankfully. Diana smiled.

"Certainly. I'm sorry I kept you waiting."

Mr. Drake looked rather foolish; actually he had come back only to see Miss Martyn again, hoping to do so without Peter being present.

"Well—er—you see. I—couldn't quite remember what quantity of 'Thrimbles' I had ordered," he said, lamely. Diana told him, and, with a surreptitious squeeze of her hand, he was gone.

"That was a near squeak," exclaimed Peter, collapsing into a chair.

"Now what about Mr. Biggs?" asked Diana.

What's that? Oh, yes. We can get immediate delivery. How many? 1,000 gross? Thank you, Mr. Biggs. Your order shall have my immediate attention. Good-bye."

Peter jumped up and threw his arms around Diana. "You're a marvel and a perfect darling," he cried. And now, when do we get married?"

"But what about your staff?" Diana asked.

"Don't you think she deserves promotion?" he suggested.

"H'm! To manager!" And Diana's laugh was cut short by a kiss.—Tit-Bits (London).

All's fair in love — except the brunette.

The stars before the pale and dubious dawn. Within the silence let us sit and stare into the feathered spirals of the fire. And, for the moment, put aside desire. To watch the luminous heart that glitters there.

Let us not desecrate this hour with sound. Of anything except our treasured breath.

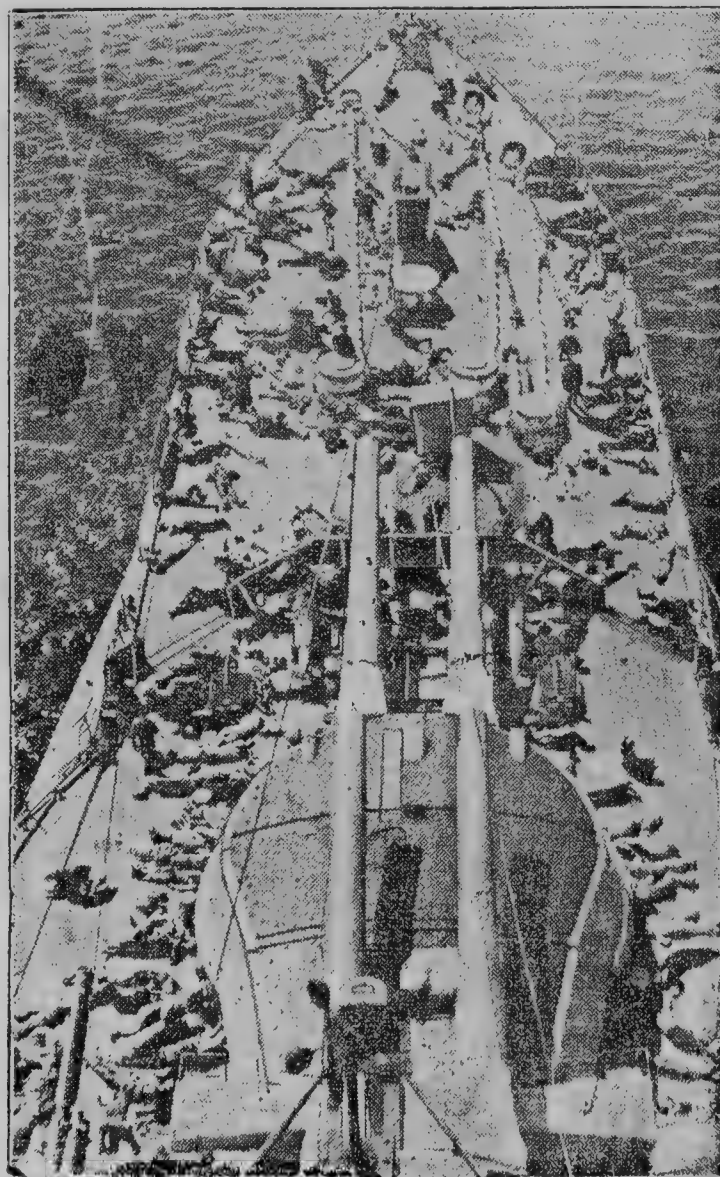

But turn our weary thoughts away from death.

And think upon the stag and on the hound.

On all things living let us think, and smile.

That we, too, are alive this little while. —Richard Henson.

British Tars At Rest

Chilean Hospitals Closing For Lack of Medicines

Santiago, Chile.—Unless more foreign exchange is released here for the importation of medical supplies, the average Chilean may soon be forced to doctor himself. The price of imported drugs has reached fabulous heights because of the marked difference between the official exchange rate and that prevailing upon the "Black Bourse" or the clandestine market.

Official and semi-official institutions such as hospitals and the State Workmen's Insurance Bank cannot, however, purchase foreign money on the "Black Bourse" because of their position.

Consequently, many hospitals are either closed or are on the verge of closing. Even in the capital the situation of some of the largest institutions is precarious because of the shortage of medicines and instruments.

Although there are numerous well equipped laboratories of considerable size here, many of them controlled by British, German, American and French interests and some of them branches of well known international drug houses, the situation cannot be easily remedied.

Titles in Spain Cheap Now, Though Barred by Republic

Madrid.—Titles of nobility are cheaper in Spain during these Republican days than they were under the monarchy. As a matter of fact, titles are free.

Although the nobles have been deprived of the right to use their titles legally, society has not recognized the republican measure and the French custom of using titles socially is observed here.

But the bearers of titles have been relieved of heavy inheritance taxes imposed under the monarchy, which collected around 2,000,000 pesetas (\$369,000 at par) annually from this tax and the tax on the creation of new titles. The usual inheritance tax was 12,000 pesetas, and 60,000 pesetas for the creation of a title. There are about 1,800 titles in Spain.

Sometimes its not what the prize fighter does but what the referee says that counts.

Chemistry, O.A.C., and we will test it and will tell you the degree of acidity and how much lime will be necessary.

It is not only necessary to correct the acidity of the soil for the crops' sake, but if you add high phosphate or high potash fertilizers on a soil that is sour much of the phosphate and potash will be locked up in forms that are unavailable for plant use and you will not get the help from the fertilizers that you should expect. The kind of fertilizers to use will, of course, depend upon what crops you are preparing to sow. For grain crops, if the soil is in fairly sweet condition and you do not have a supply of barn manure, it would be well to add about two bags of 2-12-6 per acre. If you have a supply of manure, in addition to the manure add

PUBLIC OFFERING 100,000 SHARES OF TREASURY STOCK AT 35 CENTS PER SHARE

To develop valuable properties in
the heart of the Granada Gold Belt

Visible gold has been found in several places. Channel assays taken from the five veins, at locations where no visible gold was evident, gave the following gold values:

Vein No. 1 \$63.20 per ton Vein No. 3 49.00 per ton
Vein No. 2 .80 per ton Vein No. 4 30.60 per ton

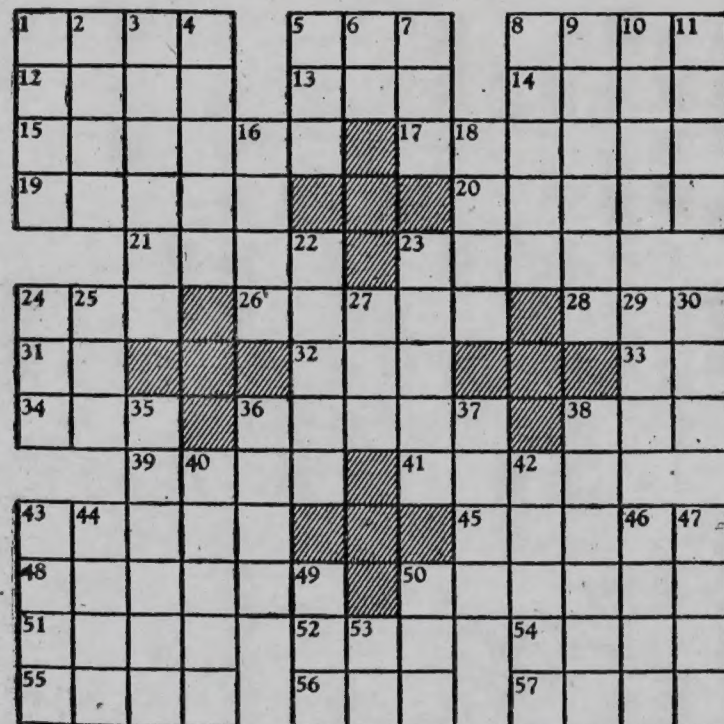

Another channel sample from what appears to be the eastern continuation of No. 3 vein gave gold values of \$140.80.

The samples were carefully scrutinized and the pulp screened before assayed, no visible gold was found. It seems that the gold values have to be attributed to the presence of gold-carrying arsenides and tellurides or to free gold in very fine distribution.

Place your order by wire, send your cheque or money order direct or write for detailed information to

Illustrated Dress... King Lesson Fur-
nished With Every Pattern

Gray and brown rough crepe silk
combine beautifully in this "young"
model.

The brown crepe extends around
the back terminating in a tie sash at
the centreback.

Note the tricky sleeves. Don't you
think they are especially smart?

And it's as simple as A, B, C to
make it.

The two surfaces of crepe satin
would also work out lovely in this
model. You'll like it in the flattering
hyacinth-blue shade.

Wool crepe is effective in cherry-
red.

Style No. 3355 is designed for sizes
14, 16, 18, 20 years, 36, 38 and 40

ARE YOU TOO FAT?

Why be troubled with excess weight when you can
reduce fat in a safe and scientific manner by
chewing LACEY'S REDUCING GUM? Thousands
of fashionable women owe their slim, girlish figures
to this wonderful British discovery. Many have lost
several pounds the first week or two. LACEY'S is
not a salt physic. British film stars and actresses
cannot be without it. LACEY'S is the only reduc-
ing preparation which has the confidence of all
women, doctors and beauty specialists in England.
Don't let excess fat spoil your looks... for health
and beauty start with LACEY'S today. 75c A BOX
AT ALL DRUG AND DEPT. STORES. If you do
not live near a drug store, remit to LACEY'S,
P.O. Box 286, Vancouver, B.C. Mailed postpaid.
Booklet, "Be Slim and Enjoy Life," on request.

REDUCE AND REJOICE! SAFE!

March is a Tease

In March
When coaxing breezes blow
And springtime fancies
Flower in snow,
I budge not from the hearth.
Instead I go
To stir a flame
The dying embers of the winter's fire
And take a new book from the shelf.
So well I know
The chill that lies

ALLY-
cent is all that
s costs You!"

ever think that a
like a split cent could
e success in baking—
actually, that's all perfect results need cost
ody.

see, you use more flour than anything else
you bake, so it has just that much more
on your results. A cup or two of Five Roses
may cost a split cent more than inferior
but it makes all the difference in the world
baking success is concerned.

en who have compared Five Roses with other
say that Five Roses goes farther, too. So
tually pays to use dependable Five Roses
and isn't it extravagant, to say the least,
k wasting eggs, milk, sugar and shortening
e sake of saving just a split cent? Five
is tested before you get it—and is always
m—that's why you can be confident of
ss with its use.

you a copy of the new Five Roses Cook
? It's a real help on bake day and a valuable
keeping house. Fill in the coupon below
our copy.

ROSES FLOUR

The New Five Roses Cook Book that
15,000 Canadian Women helped to
prepare—edited by the famous
Canadian dietitian—Jean Brodie.

British Firm to Deliver Goods By Parachute

Bristol, Eng.—An aerial express de-
livery service operated in Great Brit-
ain by J. S. Fry & Sons Ltd., is to
be expanded to include delivery by
parachute.

The firm makes cocoa and choco-
late, and consignments of these goods
will be dropped from delivery air-

planes at intermediate points through-
out the country. The parachutes will
be similar to those used by the Royal
Air Force in dropping supplies on
isolated bases in the East.

Fortune, to show us her power in all
things, and to abate our presumption,
seeing she could not make fools wise,
has made them fortunate.—Montaigne.

Your Blood Stream Is Your Life Stream

Your Health—Your Vigor—Your Happiness
Your Very Life Depends Upon Its Condition

If your Blood Stream is thin
and watery—
If it is polluted and im-
pooverished—
If it is not carrying sufficient
OXYGEN—Nature's Great
Vitalizer—to the various
parts of your body—LOOK
OUT FOR TROUBLE!

Loss of strength—lowered
vitality—poor appetite—
upset digestion—rheumatism
—heart palpitation—head-
aches—Shattered nerves—
many illnesses result from an
unhealthy blood stream.

Revitalize YOUR Blood Stream

Dr. Williams' Pink Pills will
revitalize your Blood Stream,
as they have done for thou-
sands of other people in 72
countries. . . . These Pills
purify and enrich the Blood,
so that energizing Oxygen is
carried in a vitalizing stream
to all parts and organs of the
body. . . . Thus strength is
renewed, appetite improved

new nerve force built up, and
a fresh sense of happiness
and well-being is developed.
Dr. Williams' Pink Pills are
beneficial for young, growing
girls, for men and women in
middle life and later years—
for ALL whose Life Stream
needs enriching. . . . Get a
supply from your Druggist
without delay—50 cents a
package.

And it's as simple as A, B, C and
make it.
The two surfaces of crepe satin
would also work out lovely in this
model. You'll like it in the flattering
hyacinth-blue shade.
Wool crepe is effective in cherry-
red.
Style No. 3355 is designed for sizes
14, 16, 18, 20 years, 36, 38 and 40
inches bust.
Size 16 requires 2½ yards 39-inch
with 1½ yards 39-inch contrasting.
HOW TO ORDER PATTERNS.
Write your name and address plain-
ly, giving number and size of such
patterns as you want. Enclose 15c in
stamps or coin (coin preferred; wrap
it carefully) for each number, and
address your order to Wilson Pattern
Service, 73 West Adelaide St., Toronto.

Chinese As Spoken By Resident Foreigners

This is the way foreigners in China
pronounce the geographical names
and names of leaders which figure in
the clash between China and Japan:
Jehol, Rey-Ho, emphasis on Rey.
Shanhaikwan, Shan-Hai-Gwan.
Chinwangtao, Chin-Way-Dow.
Chinchow, Chin-Cho.
Mukden, Mook-den.
Peiping, Bay-Ping.
Tientsin, Ein-Sin.
Manchukuo, Man-Chu-Go.
Tungliiao, Toong-Lee-Ow.
Chaoyanhsu Chow-Yang-Soo.
Chaoyang, Chow-Yang.
Kailu, Kal-Loo.
Peipiao, Bay-Pee-Ow.

Officers:
Gen. Ho Chu-Go, Ho-Choo-Go.
Marshal Chang Hsiao-Lang.
Chang Seeow-Leeang.
Gen. Ho Chu-Kuo, Ho Choo-G.

Soviets Burn Petrified Lava

Petrified lava used in Ani, in ancient
capital of Armenia, which was burned
a thousand years ago, is now being
utilized in building modern Soviet
houses.

When coaxing breezes blow
And springtime fancies
Flower in snow,
I budge not from the hearth.
Instead I go
To stir a flame
The dying embers of the winter's fire
And take a new book from the shelf.
So well I know
The chill that lies
In March's laughing April eyes
That I mistrust her siren song
As through the streets she sweeps
along.

But when she rattles at my window-
pane
And sings for me her loud refrain,
I turn my head
To watch just how
She conjures blossoms on the naked
bough.

Then back to the bookshelf
Goes the book,
Into the firelight

One last look—
And I am off to follow her!
—Geoffrey Clumber, in The Christian
Science Monitor.

Hole Nine Miles Deep In Floor of Atlantic

San Juan, Puerto Rico. — Dr. Paul
Bartsch, head of an oceanographic ex-
pedition operating off Puerto Rico, has
reported the discovery of a new At-
lantic depth of 44,000 feet — nearly
nine miles.

The hole in the ocean floor is near
Mare's Deep, about 75 miles north of
Puerto Rico, he said. Nautical charts
show the deepest spot hitherto known
in the Atlantic as 27,972 feet, in this
same vicinity.

"You look worried." "Yes, I believe
my husband is carrying on with an-
other woman." "Oh, well, I'll tell you
what to do in a case like that. Give
him plenty of rope, and—" "Yes, I
know. He'll skip."

FREE TRIAL OFFER OF KRUSCHEN

If you have never tried Kruschen—try
it now at our expense. We have
distributed a great many special
"GIANT" packages which make it
easy for you to prove our claims for
yourself. Ask your druggist for the
new "GIANT" 75c. package.
This consists of our regular 75c. bottle together
with a separate trial bottle—sufficient for about
one week. Open the trial bottle first, put it to
the test, and then, if not entirely convinced that
Kruschen does everything we claim it to do, the
regular bottle is still as good as new. Take it
back. Your druggist is authorized to return
your 75c. immediately and without question.
You have tried Kruschen free, at our expense.
What could be fairer? Manufactured by
E. Griffiths Hughes, Ltd., Manchester, Eng.
(Estab. 1756). Importers: McGillivray Bros.,
Ltd., Toronto.

THAT DEPRESSED FEELING IS LARGELY LIVER

Wake up your Liver Bile
—Without Calomel

You are "feeling punk" simply because your
liver isn't pouring its daily two pounds of liquid
bile into your bowels. Digestion and elimination
are both hampered, and your entire system is
being poisoned.
What you need is a liver stimulant. Some-
thing that goes farther than salts, mineral water,
oil, laxative candy or chewing gum or roughage
which only move the bowels—ignoring the real
cause of trouble, your liver.
Take Carter's Little Liver Pills. Purely vege-
table. No harsh calomel (mercury). Safe. Sure.
Ask for them by name. Refuse substitutes.
35c. at all druggists.

for **STIFFNESS**
Plenty of Minard's well
rubbed in soon sets you
right. Bathe the sore part
with warm water before you
start.
34 You'll soon limber up!

MINARD'S
"KING OF PAIN"
LINIMENT

TIRED AND IRRITABLE?

Take Lydia E. Pinkham's
Vegetable Compound

It steadies the nerves and helps
to build you up. You will eat bet-
ter . . . sleep better . . . look bet-
ter. Life will seem worth living
again. Remember that 98 out of
100 women say, "It helps me."
Let it help you too. Liquid or tab-
let form, as you prefer.

Indian Rice Cultivation

When the early fur traders extended their activities northward through the then little-known Louisiana territory and entered the Sioux, the Chippewa and the Cree nations, they found the Indians using wild rice in much the same manner as the coastal and southern Indians used maize, writes Lawrence W. Pedrose in the Scientific American. The rice fields were merely shallow lakes and seemed almost limitless in extent. Harvesting was simple. A light canoe was poled through the fields, a squaw seated in the stern with a birch bark basket in front of her. In her hands she held two short clubs. As the canoe made a lane through the rice, she hooked sheaves of rice-stalks with one club and bent the heads over the basket with the other she struck the grain from the heads with a quick, sharp blow. The method, while painstakingly slow, was productive, and a good worker could harvest several hundred bushels of rice in a day.

Treasurer's Sale of Lands

for Taxes

PROVISIONAL COUNTY OF HALIBURTON

PROVISIONAL COUNTY OF HALIBURTON TO WIT:

BY VIRTUE OF A WARRANT issued by the Warden of the Provisional County of Haliburton, and authenticated by the seal of the said Provisional County, bearing date the Fifth day of December, 1932, and to me directed for collection of the arrears of taxes due for three years or over upon the lands hereinafter mentioned and described, being in the Provisional County of Haliburton. These are therefore to give notice that unless the said taxes, together with the lawful costs and charges be sooner paid, I shall on Monday, the Twentieth day of March, 1933, at the hour of one o'clock in the afternoon, at the County Treasurer's Office, Minden, in the said Provisional County proceed to sell by public auction the said lands, or as much thereof as may be sufficient to discharge such arrears and costs and charges incurred.

PETITION

TO THE HONORABLE, THE HOUSE OF CANADA,

simple. A light canoe was poled through the fields, a squaw seated in the stern with a birch bark basket in front of her. In her hands she held two short clubs. As the canoe made a lane through the rice, she hooked sheaves of rice-stalks with one club and bent the heads over the basket with the other she struck the grain from the heads with a quick, sharp blow. The method, while painstakingly slow, was productive, and a deft worker could harvest several hundred pounds in a day.

Great Pan Is Dead!

A member of the old school who stepped through Ellenberger woods on a Saturday afternoon will not wonder that the sunshine of that magical day inspired a literary aunt to recite her six-year-old niece the Greek names of Apollo and Daphne.

Only a member of the old school will appreciate the aunt's chagrin when, in the light of her enthusiasm, grasping a torch, portraying in turn the attributes of the sun god and the growth of trees, roots, branches and roots of Daphne's fair body, she was inspired by the most disgusted of looks of the tiny philosopher and the impatient remark:

"Aunt Bess, make up a good one!" Indianapolis News.

Orchestra Music

An orchestra is a band of performers of various instruments, including especially those of the viol class, adapted for rendering the larger kinds of concerted music, as symphonies, operas, etc., and the accompaniment of operas, oratorios, masses, etc., like, or for playing the slightest of music for theatrical performances, dances, etc. It is commonly distinguished from the military or street band of players on wind instruments, and from a group of solo players for rendering chamber music.

"Movie of a Movie"

It is not possible, so far as we can find out, actually to make a real movie of another movie. Light would be necessary and consequently the movie being photographed would not be visible and could not register on the film. The experts say that, of course, through double exposure the effect of a movie of a movie could and has been given or that the same thing might be done through pen or wash drawings. In other words, an advanced form of animated cartoons.—Washington Star

Girls and Their Jobs

One of the major difficulties of the adolescent girl is "adjustment to her work life"—or, more plainly, getting along with the boss.—Washington Companion.

PETITION

TO THE HONORABLE THE HOUSE OF CANADA,
IN PARLIAMENT ASSEMBLED.

WE, THE UNDERSIGNED CITIZENS of Canada, being a free and independent people, in self determination, do hereby vigorously protest: Radio Commission of Canada in censoring or exclude from public broadcast radio lectures on the Bible and of public interest, and particularly the Word of God, and that it was written for the sincere persons claim that the Bible prophecies a day and bear direct relationship to the present; two God's remedy for relief. We are entitled to hear discussed free from all censor, otherwise our Those who object, or who may be offended by such radio dials and decline to hear.

We therefore demand that the Dominion Parliament removing from the Radio Commission the or prevent such lectures by radio and that the pec mine what they may or may not hear. Men of we inently qualified to explain the Bible, such as we b be helpful to the people and we demand that our r to publicly broadcast his lectures. The question tinue to enjoy freedom or shall a few men deprive rights?

OBITUARY

JOSEPH FADER

After much suffering during the last month, there passed away on March 10th, one of the oldest pioneers of Maple Lake, in the person of Joseph Fader.

Mr. Fader, who spent the younger part of his life in Quebec, moved to Maple Lake in the year 1884, where he has finished out the age of 93 years, 5 months and 22 days.

He leaves to mourn his loss, his life partner, aged 88 years, one daughter, Mrs. Henry Sawyer, and six sons, William, George, Joseph and Charlie of Maple Lake, Alfred of Ottawa and Elder of Saskatchewan. There are thirty-two

grandchildren.

The funeral services were held at the United Church on March 11th, at 10 o'clock, with the Rev. V. Zube officiating. Burial was in the Maple Lake cemetery. Wreaths by Tom Archer.

About 8 to \$15; and about price \$7. A
